

BLUE-R-V2 Recovery station

ITE proudly presents his new upgraded recovery station **BLUE-R-V2**.

Existing features and specifications:

- Suitable for all CFC, HCFC and HFC refrigerants with an evaporation pressure lower than 21 bar, R410A included.
- Recovery unit with maintenance free oilless compressor.
- Refrigerant selectable recovery. 3 position selector allows complete automatic recovery of all refrigerants categorized in pressure group low, medium or high.
- Large built-in condenser ensures high efficient recovery and will make sure that recovered refrigerant will be liquified before it is being discharged in the recovery bottle.
- Equipped with electrical DIN connector to allow use with WS-30 or recovery bottle (float) overfill protection.
- Equipped with a self-discharge mode allowing change from one refrigerant to another without cross contamination.
- Supplied with filter drier model FDL-032 which can be replaced quickly and easily.
- Equipped with adjustable strap for easy carriage.

New, additional features and specifications:

- Supplied with a set of 3 hoses 36" (90 cm) with integrated ball valves.
- Faster and easier self-cleaning procedure (with added MV-5050 valve core actuator).
- Upgraded high pressure protection.
